

Prepare for Your Pets

Keep your pet's essential supplies in sturdy containers that can be easily accessed and carried (a duffle bag or covered trash containers). Keep a set of supplies in your car. In the event you cannot get home during a widespread emergency, make certain a neighbor knows your pet by name and where food is stored. Your pet emergency preparedness kit should include:

- 3-7 days of food (rotate)
- 7 days bottled water
- Feeding dishes
- Leash/harness
- Disposable litter tray/litter
- Disposable waste bags
- Paper towels/soap
- Pet first aid/medications
- Records of vaccinations
- Photo of pet
- Proof of registration
- Toys/blanket
- Carrier
- Pet tagged or microchipped
