

## **INDIVIDUAL RESPONSIBILITY**

The first layer of defense for each person's safety is taking individual responsibility for prevention. This includes:

- ❖ Being vigilant,
- ❖ Reporting unusual or suspicious behaviors
- ❖ Locking your doors
- ❖ Knowing your neighbors

The Neighborhood Watch, in concert with Charbonneau's Public Safety Coordinator, provides informational and educational opportunities for residents on Awareness and the tools they can use to enhance their personal security. As residents increase their individual safety, they will also increase community-wide security. Watch for email alerts and Villager articles on upcoming events.
